Annex A - Terms of Reference

Survey to conduct and recommend UNHCR a scale of contribution for partner personnel costs (non-expatriate) in Sudan.

Background

UNHCR currently have 33 Partners including Government entities and NGOs – both national and international. Under the Project Partnership Agreements, UNHCR's Government and NGO Partners are expected to deploy competent personnel and put in place policies as well as take reasonable measures to ensure that their respective organizations and personnel carry out their duties and functions in accordance with the highest ethical and professional standards.

Partners are the sole responsible entity for the recruitment, employment, establishment of contracts, management, and dismissal of their Personnel and for payment of salaries and other entitlements including insurance, social security, termination benefits, end-of-service entitlements, and other forms of employment compensation applicable under national labour laws.

In the spirit of the partnership, Partners may request a contribution from UNHCR to cover the Partner Personnel Costs. UNHCR office(s), based on UNHCR's ability to contribute, will contribute towards such costs. The remuneration systems and salary scales are distinctly different among Partners and diverse in areas where they operate, in providing the basis for determining the level of the UNHCR contribution to Partner National Personnel costs engaged under UNHCR-funded projects. UNHCR can use either local rates for the UNHCR contribution towards National Personnel costs established through UN Country Teams (not the UN staff salary scale) or, alternatively, a survey commissioned by the UNHCR Country Office in consultation with Partners.

Since there are no local rates established through the UN Country Team for partners and UNHCR has been funding partners (both national and INGOs') salary contributions that are not unified, UNHCR Sudan will conduct a remuneration survey through comprehensive local labor market research, involving various comparators that will be identified from the international and national humanitarian non-governmental and not-for-profit organizations as well as other UN agencies funded project positions. The remuneration scales should be established based on the local labor market and be consistent with the prevailing levels of pay for similar services, contract conditions and comparable work in the local labor market.

Furthermore, the need for a harmonized structure has been necessitated by the inflation of the Sudanese currency which has led to increased cost of commodities hence reduced purchasing power since there has been no concrete steps taken to review salaries with a view of cushioning the impact of the inflation.

A standard categorization of the Partner National Personnel functions (whether employed by International or National Partners) in line with the UNHCR Sudan functional classification is introduced below for consistency amongst various types of Partners and Personnel. The categorization should guide the survey to arrive at a harmonized salary scales both at Gross and Net pay.

National Personnel Category	Positions
A	Support (Guards, Helper, Driver, casual labour etc.)
B	Junior Assistants (Clerks, Data Entry, Secretaries, etc.)
C	Senior Assistants (Senior Finance Assistants, Programme Officers, Nurse, Social Workers, etc.)
D	Senior Officer (Senior Programme Officers, Doctors, Engineers, etc.)
E	Managers (Team Leaders, Senior Managers, Deputy Directors, Directors, Presidents, etc.)

Objectives:

- In accordance with the established UNHCR policies and Guidance Note 07/FP/S2-3 on Partner Personnel (Annex A) and based on the current level of the UNHCR contribution towards Partner National Personnel costs within UNHCR Sudan, the selected contractor/firm will conduct an independent survey for the purpose of recommending a new remuneration scale for UNHCR Partner National Personnel engaged under UNHCR-funded Partnership Agreements (in line with the established standard categorization) and corresponding to prevailing local market rates for similar work of comparable quality, complexity and difficulty.
- To define benchmarks for UNHCR's Representation in Sudan to set the right and consistent level of contribution towards partners' project personnel costs in a systematic approach, taking into consideration the national law on labor, income tax and national social security and other staff benefits including hardship and risk allowances.

Scope of Works:

- UNHCR shall provide to the contractor a list of its current funded Partners as well as Partner position Lists.
- The selected contractor/firm shall review UNHCR Sudan's existing contributions for Partner National Personnel costs, existing job categories and salary structure of partner organisations for the national staffs.
- The contractor/firm shall suggest to UNHCR a list of organizations and positions/jobs which may be considered as Comparators, for the purpose of establishing Partner National Personnel remuneration.
- The selected contractor/firm shall collect and analyze the following information from each of the agreed Comparators as suggested above:

 2. The salary structures and associated benefits (including typical allowances and benefits package both monetary and non-monetary) of the selected Comparator organizations for existing Job Descriptions.
 3. Information on the Comparator employer (size, number of employees, length of time present in the location, etc.).
 4. Before the results of the survey and remuneration scale will be concluded, the contractor/firm shall present a draft analysis report to UNHCR and partners for discussion and feedback.
 5. The contractor/firm shall make final recommendations on the proposed remuneration scale and shall prepare a Final Report, incorporating comments from UNHCR and NGOs, containing all the items listed in Section (expected outcome).
 6. The contractor/firm shall maintain complete confidentiality of all data and documents provided by selected Comparator employers and by UNHCR. Data from Comparator employers will be shared with UNHCR only.
- Target identified international NGOs, local NGOs and other civil society organizations in Sudan taking into consideration the size and scale of operations of the NGOs (based on the organizations' operating costs, number of staff, number of field offices, etc.), the different sectors, regions, and locations that they are operating in.
- Include market information on the base of the salary scale, fixed/regular allowances, incentives, and benefits in compliance with the standards defined by the Sudanese labor law (such additional compensation may include transportation, annual holidays, end of service indemnity, retirement, health insurance life insurance programs, family plans, and leave policies).

Expected Output:
